NOTE FOR: The Director

FROM: John L. Helgerson

Judge Webster:

Congressman Dickinson of the House Armed Services Committee may call you directly to request that satellite imagery be declassified for public debate on Soviet military issues. In the past, even in the face of appeals from Secretaries of State and Defense, the CIA has always refused to declassify satellite imagery

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Mr. Carl Bayer, HAS Staff

1. On 7 April 1988, I was invited by RADM Craig Dorman, SPAWAR PD-80, to attend a meeting in his office regarding Nonacoustic ASW topics. Also present at this meeting was Mr. Carl Bayer from the House Armed Service Staff.

2. The purpose of this meeting was twofold. First, was to brief Mr. Bayer on some of RADM Dorman's activities. Second, was to describe some of the technical, hence financial, aspects of these programs. The OSWR NAASW Program Office was invited to attend mainly as a means to keep us advised on the Navy's programmatic activities. Secondly, it would allow us to comment on any aspect of what RADM Dorman described as it pertained to our Congressionally mandated effort.

3. Since this was the first meeting RADM Dorman had with Mr. Bayer very few substantial issues were raised. It was more of a get acquainted meeting. There were no questions directed to me by Mr. Bayer. Also, there was nothing presented by RADM Dorman which required any further clarification from our perspective.
